TUCKER HARRIS

Washington, D.C. GITHUB: github.com/tuckabelle PORTFOLIO: etuckerharris.com

Web Designer and Developer specializing in front end development who manages priorities and deadlines while producing attractive and functional sites. Always seeking to learn new skills that will benefit both the team's development process and the client's product.

EXPERIENCE

Virginia Museum of Fine Arts, Exhibition Design Department — *Design Assistant*

Summer 2014 - PRESENT

Developed scripts for Indesign using JavaScript, increasing efficiency, accuracy, and consistency when processing labels and annotated panels. Collaborated with clients, editors, and graphic designers to produce didactic materials and signage for exhibitions and events.

Virginia Museum of Fine Arts Curatorial Department — *Curatorial Assistant*

SUMMER 2013 - SPRING 2014

Developed and maintained the department's first object database with Microsoft Access for the Forbidden City Exhibition (2014). Generated comprehensive collection checklists for the permanent collection of East Asian art and produced graphics for meeting presentations.

Library of Virginia Foundation The Virginia Shop, — Webmaster & Store Associate

SPRING 2011 - FALL 2013

Redesigned the store's retail website, improving web traffic and sales. Updated the store's product photos, descriptions, and event details online. Developed the 2013 Virginia Literary Awards and Virginia Literary Festival website using Dreamweaver.
